\$18 Oops Kit, includes 11"x11" square of 18 fabrics

Ship monthly, \$5/month/kit (based on kit weight)

Ship 2 months at a time, \$8/shipment

Thanks you for your interest in the Wayside Sewing 2025 Block of the Month Program. This 10 month program runs February through November 2025, so you can be done in time for the holidays.

Floral Diamond is a n 84" x 84" queen size quilt. Each months kit includes the instructions for that month, The kits usually include two different block patterns, and instructions on how many of each block to make. On average expect to make 5-10 blocks a month total across the two block patterns.

**Do NOT pre-wash or trim** up fabrics. To keep costs down you have a small amount of extra fabric on each fabric, if washed and trimmed these pre-cut sections can fray and distort, limiting how much fabric you have available after squaring it up and may not be sufficient to cut all pieces. Refer to the **Cutting Instructions** provided each month. These instructions explain the order in which to cut the pieces so there is enough for all pieces required for the blocks. Use the cutting instructions in combination with the **Cut List** to cut all pieces.

Keep the color chart from month one, this provides pictures to go along with the color names for each color referenced in the instructions

Optional OOPS kits are available (\$18) for anyone that wants a little extra fabric for all 18 fabrics used in the blocks. These pieces are large enough to re-cut even the largest piece called for in any block and more than enough for lots of the smaller pieces.

We are trying something new this year and will take credit card information at time of registration and automatically charge you each month. You can then just drop by and pick it up at your convenience, no waiting at the register to pay. If you prefer pay-as-you-go that is available too.

**At the end of 10-month, if you paid and pick-up, the registration fee will be applied to your backing fabric purchase for the quilt.**
