☐

Ship monthly, \$5/month/kit (based on kit weight)

☐

Ship 2 months at a time, \$8/shipment

Thanks you for your interest in the Wayside Sewing 2026 Block of the Month Program. This 8 month program runs December 2025 through July 2026 , so you have plenty of time to get it quilted before the holidays.

Beautiful Batiks is a Full Size quilt at 64" x 76". The design makes it easy to envision adding additional borders if you want a queen or king sized quilt.

Each month the kit includes instructions and enough fabric to make the blocks for the month. On average expect to make a few large blocks or a lot of small blocks every month.

Do NOT pre-wash or trim fabrics. To keep costs down you have a small amount of extra fabric on each cut, if washed and trimmed these pre-cut sections can fray and distort, limiting how much fabric you have available after squaring it up and may not be sufficient to cut all pieces. Refer to the **Cutting Instructions** provided each month for what and how to cut pieces.

Keep the color chart from month one, this provides pictures to go along with the color names for each color referenced in the instructions

Optional OOPS kits are available (\$25) for anyone that wants a little extra of all fabrics used in the blocks. These pieces are large enough to re-cut even the largest piece, and more than enough for the smaller pieces.

Provide your credit card information at time of registration and it will be automatically charged at the start of each month. Drop by and pick up your kit at your convenience, no waiting at the register to pay. If you prefer pay-as-you-go please see a sales associate to arrange payments. If selecting shipping, they will be mailed monthly or bi-monthly based on your selection.

The last month you will get a yard of fabric, of your choice, to bind your finished project, and all extra fabrics will be made available to BOM club members for optional borders.
